[Wisconsin Virtual School](#)

is a provider that partners with more than 200 school districts/300 schools throughout the state to offer online education to middle and high school students. Operated out of CESA #9, WVS is a solution for any school that wants to offer online or blended courses to its local students in grades 6-12. Because we are a supplemental online course provider, your students remain in YOUR district and are counted as YOUR students. WVS does not award credits or diplomas to students. WVS can be your resource for local planning, implementing, and evaluating your digital learning options. Districts maintain control of local enrollments and policies concerning eligibility for WVS classes and credits awarded. With WVS, districts can offer online and blended options to their students with minimal cost and time.

**QUICK FACTS:**

[WVS Course List](#)

[=HYPERLINK\("wisconsinvirtualschool.org","WVS Pricing "\)](http://www.wisconsinvirtualschool.org)

- \$290 per semester course for High School, Middle School, and Advance Placement
- \$190 per semester course for Credit Recovery
- \$150 per semester course with YOUR teacher
