Special Education Improvement Services (formerly Flagship) is a system of program and implementation support designed to supplement existing programs provided by CESA #4. The primary purpose is to connect our leadership team with participating districts on implementation of best practices in special education. We partner with your leadership team to focus on your priorities. This service focuses on improving student outcomes by working with district personnel and aligning our training to professional standards and indicator targets with school/student improvement at the core of our work.

Level 1

Level 1 - Basic Service

How can this service benefit your district?

- Site visits or in-district training and support upon request
- Collaborate with districts on new programs and services
- Ongoing technical assistance, resources, and access to CESA #4 staff via email, phone, and other correspondence
- Four Special Education Leadership meetings (separate from RSN meetings)
- Discounts on multiple networking opportunities
- In-district professional development personalized to meet district need upon request (e.g. Paraprofessional training, Behavior management, Autism)
- Procedural Compliance Self Assessment Support
- Paraprofessional newsletter
