

Environmental Health and Safety (In Cooperation with CESA 10)

Lance Gregorich, CESA #10
(715) 720-2046
lgregorich@cesa10.k12.wi.us

CESA 10's Environmental Health and Safety (EHS) program provides cost-effective safety solutions while maintaining District compliance with local, state, and federal regulatory agencies. CESA 10's EHS program's annual service contracts consist of a safety and compliance continual improvement process.

Annual Service Contracts include:

- General knowledge safety walkthrough of buildings
- EHS Binder (written program templates, Toolbox Talks templates, and more!)
- Chemical fume hood testing
- Support during regulatory inspections
- Safety documentation audit of written programs
- Cloud housing for easy access to District EHS documentation and templates
- Subject Matter Expert availability (areas include EHS, energy efficiency, facilities, project planning, and demolition planning)

Additional Low-Cost Services:

- MSDSonline access/supplemental services
- AHERA asbestos inspections
- Asbestos Bulk Sampling
- Indoor Air Quality Investigation/Testing
- Lead Paint and Water Testing
- Staff Safety Trainings
- Asbestos O&M Initial/Refresher Trainings
- Lead Renovator Initial/Refresher Trainings
- Electrical Safety Trainings
- Safety program development/implementation
- Recycling programs (lamps/ballasts, office equipment, chemicals)

Additional services are billed on a time and materials basis and are charged on a separate contract.

Annual Service Contract pricing starts with a base fee plus \$.003477 per square foot.

For more information on the EHS program, visit [CESA #10's EHS website](#)
